

EYEBODY®

The Art of Integrating Eye, Brain and Body

Beyond Glasses: Living the EYEBODY Connections Advanced Retreat with Peter Grunwald

21-28 July 2012

Roncegno, Trentino, Northern Italy

**7 days of personal practice on the use of brain, eyes and vision
for experienced students of the EYEBODY Method**

Casa Raphael is a grand hotel which has been renovated in the elegant "Belle Epoque" style. It is surrounded by a large park and shady avenues and pathways.

Seven days at the wonderful Casa Raphael will provide us time and space to deepen the EYEBODY process and offer us some leisure time, too. In the charming Trentino region northwest of Venice, the foothills of the Alps meet the beauty and ambiance for which Italy is loved. Whether you have been part of the advanced community for years or intend to join us for the first time: Welcome to the retreat!

The course is in English, with help for non-native English speakers. Places will be booked up fast, so we recommend you register as soon as possible. After 1 May, please check for available spaces before booking.

The venue Casa di Salute Raphael is a spa hotel situated in the lovely village of Roncegno. It combines the charm of 19th century architecture and furniture with modern facilities, allowing guests to breathe some Belle Epoque air. It offers single and double/twin rooms all with bathroom and direct telephone lines. The Casa has an indoor swimming pool, café bar, large external courtyard, porch and terrace with magnificent views of the Valsugana valley and the surrounding mountains.

The food is organic and offers both vegetarian and non-vegetarian highlights of the Italian cuisine. The venue is located approx. 140 km from both Venice and Verona airports. Roncegno is a railway station on the route between Venice and Trento. www.casaraaphael.com

The course content is designed to deepen your previous experience with presence and conscious depth perception applied to the visual pathway. We will discover more about witnessing sensory input, emotions and memories (our stories and non-stories) and letting go of attachment to them – a vital ingredient for clear-sight and the freedom to choose. We will work on the function of the upper visual cortex for primary coordination and visualization, while connecting essential qualities to various areas of the visual system. During the retreat we will explore in more depth the frontiers of the EYEBODY connections. The practices of vision dance and ball games will be included as well as EYEBODY meditation, interviews and daily activities. **Based upon past experiences we will include new structures to enhance our learning process.**

Pre-requisites

It is essential that participants have experienced at least two 6-day-retreats or a 3-week New Zealand Intensive as well as a number of private sessions with Peter - all since summer 2008. Please note, if you do not fulfil these criteria we recommend that you participate in other 6-day-retreats available prior to attending "Beyond Glasses". We invite those of you who are seriously committed to studying the vision process in more depth with Peter to join us in Italy. **To start the retreat on an advanced level we recommend preparing yourself by practicing meditation, vision dance and working with the EYEBODY CDs.** A sense of humour, and a willingness to see and think in a more refined way are vital for participation.

A week of Beyond Glasses: Living the EYEBODY connections. See you in Italy!
